J. Hoffmann, C. Adam, D. Troitzsch, S. Reinert

Bioresorbable Fixation in Craniomaxillofacial Surgery, Poster

Cutright DE, Hunsuck EE, Beasley JD

Fracture reduction using a biodegradable material, polylactic acid.

J Oral Surg 29:393, 1971

BM Jones, P. Jani, RM Bingham, AM Mackersie, R. Hayword

Complications in paediatric craniofacial surgery: An initial four year experience.

Brit. Journal of Plast Surgery 45: 225-231, 1992

Bessho K, Tadahiko I, Murakami KI

A bioabsorbable poly-Llactide miniplate and screw system for osteosynthesis in oral and maxillofacial surgery.

J Oral Maxillofac Surg 55:941, 1997

Eppley BL, Sadove AM, Havlik RJ

Resorbable plate fixation in pediatric craniofacial surgery

Plast Reconstr Surg 100:1, 1997

Suuronen R, Pohjonen T, Hietanen J.

A 5-year in vitro and in vivo study of biodegradation of polylactide plates

J Oral Maxillofac Surg 56:604, 1998

Eppley BL

Use of a resorbable fixation technique for maxillary fractures

J Craniofac Surg 9:317, 1998

Edwards RC, Kiely KD

Resorbable fixation of Le Fort I osteotomies

J Craniofac Surg 9:210, 1998

Shand JM, Heggie AA

Use of a resorbable fixation system in orthognathic surgery

Br J Oral Maxillofac Surg 38:335, 2000

R. Suuronen, I. Kallela, C. Lindqvist

Bioabsorbable Plates and Screws: Current State of the Art in Facial Fracture Repair

The Journal of Cranio-Maxillofacial Trauma 2000; 6 (1): p. 19-27

R. Suuronen, I. Kallela, C. Lindqvist

Bioabsorbable Plates and Screws: Current State of the Art in Facial Fracture Repair

The Journal of Cranio- Maxillofacial Trauma 2000; 6(1): p. 19 -27

Heidemann, Gerlach

Long time results of the application of stereopolymers of Polylactides in CMF Surgery
Biomed. Technik; Band 46; 2001

Heidemann, Gerlach

In vivo examinations on the biocompatibility of PDLLA
Biomed. Technik; Band 46; 2001

Mario J. Imola, David D. Hamlar, Weiru Shao, Khalid Chowdhury, Sherard Tatum:
Resorbable Plate Fixation in Pediatric Craniofacial Surgery
Arch Facial Plast. Surg. / Vol. 3, Apr.-June 2001, p. 79

Heidemann W, Jeschkeit D, Ruffieux K.

Degradation of poly (D, L) lactide implants with or without addition of calcium phosphates in vivo.
Biomaterials 22:2371, 2001

W. Heidemann, S. Jeschkeit, K. Ruffieux, J. H. Fischer, M. Wagner, G. Krueger,
E. Wintermantel, K.L. Gerlach

Degradation of poly (D, L) lactide implants with or without addition of calcium phosphates in vivo
Biomaterials 22 (2001), p. 2371-2381

Edwards RC, Kiely KD, Eppley BL

Fixation of bimaxillary osteotomies with resorbable plates and screws: Experience in 20 consecutive cases
J Oral Maxillofac Surg 59:271, 2001

Araujo MM, Waite PD, Lemons JE

Strength analysis of the Fort I osteotomy fixation: Titanium versus resorbable plates
J Oral Maxillofac Surg 59:1034, 2001

Turvey TA, Bell RB, Tejera TJ.

The use of self-reinforced biodegradable bone plates and screws in orthognathic surgery
J Oral Maxillofac Surg 60:59, 2002

P Maurer, S. Holweg, WD. Knoll, J. Schubert.

Study of finite element method of the mechanical stress of selected biodegradable osteosynthesis screws in sagittal ramus osteotomy.
British Journal of Oral Maxillofacial Surgery 40/2002, p. 76-83

Heidemann W., Gerlach K.L.

Anwendung eines resorbierbaren Osteosynthesesystems aus Poly-(D,L-) laktid in der Mund-, Kiefer- und Gesichtschirurgie
Deutsche Zahnärztliche Zeitschrift 57, 2002

W. Heidemann, K. L. Gerlach

Anwendung eines resorbierbaren Osteosynthesesystems aus Poly-(D,L-)Laktid in der Mund-, Kiefer- und Gesichtschirurgie

Deutsche Zahnärztliche Zeitschrift 57 (2002), S. 50-53

W. Heidemann, S. Jeschkeit-Schubbert, K. Ruffieux, J. H. Fischer, H. Jung, G. Krueger, E. Wintermantel, K.L. Gerlach

pH-stabilization of predegraded PDLA by an admixture of water-soluble sodium hydrogenphosphate- results of an in vitro- and in vivo-study

Biomaterials 23 (2002), P. 3567-3574

W. Heidemann, J.H. Fischer, J. Koebke, K. L. Gerlach

In-vivo Untersuchung zur Degradation von Poly-(D,L-)Laktid- und Poly-(L-Laktid-co-Glykolid) Osteosynthesematerial

Mund Kiefer GesichtsChir 5, 2003, S. 283-288

Humberto L. Acosta, Eric J. Stelnicki, Luis Rodriguez, Lisa A. Slingbaum

Use of absorbable PDLA plates in cranial vault remodelling. Presentation of the first case and lessons learned about its use

Paper presented at the Florida Cleft Palate-Craniofacial Association, Winter Symposium in Orlando, Florida, January 17-19, 2003

Norholt SE, Pedersen TK, Jensen J

Le Fort I miniplate osteosynthesis: A randomized, prospective study comparing resorbable PLLA/PGA with titanium. Int

J Oral Maxillofac Surg 33: 245, 2004

P. Laine, R. Kontio, C. Lindqvist, R. Suuronen

Are there any complications with bioresorbable fixation devices ? A 10 year review in orthognathic surgery

International Journal of Oral Maxillofacial Surgery, 33 – 2004, p. 240 – 244

Cheung LK, Chow LK, Chiu WK

A randomized controlled trial of resorbable versus titanium fixation for orthognathic surgery

Oral Surg Oral Med Oral Pathol Oral Radiol Endod 98:386, 2004

E. Pilling, R. Mai, F. Theissig, B. Stadlinger, R. Loukota, U. Eckelt

An experimental in vivo analysis of the resorption to ultrasound activated pins (SonicWeld®) and standard biodegradable screws (ResorbX®) in sheep

Accepted 4 December 2006

Costa F, Robiony M, Zoran E, et al: Stability of skeletal class III
malocclusion after combined maxillary and mandibular procedures: Titanium versus resorbable plates and screw for maxillary fixation
J Oral Maxillofac Surg 64:642, 2006

E. Pilling, H. Meissner, R. Jung, R. Koch, R. Loukota, R. Mai, B. Reitemeier, G. Richter, B. Stadlinger, E. Stelnicki, U. Eckelt

An experimental study of the biomechanical stability of ultrasound –activated pinned (SonicWeld Rx® + Resorb X®) and screw fixed (Resorb X®) resorbable materials for osteosynthesis in the treatment of simulated craniosynostosis in sheep

British Journal of Maxillofacial Surgery (2007), doi: 10.1016/j.bjoms.2006.12.008)

U. Eckelt, R. Mai, E. Pilling, A. Müller, T. Pinzer, D. Roesner, B. Stadlinger

The application of SonicWeld Rx® osteosynthesis techniques in Craniofacial Surgery

Journal of Maxillofacial & Oral Surgery 2007, Vol. 6: No. 4, p. 22-25

Pilling E, Meissner H, Jung R.

An experimental study of the biomechanical stability of ultrasound-activated pinned (SonicWeld Rx® Resorb-X®) and screwed fixed (Resorb-X®) resorbable materials for osteosynthesis in the treatment of simulated craniosynostosis in sheep

Br J Oral Maxillofac Surg 45:5, 2007

Ultrasound aided pin fixation of biodegradable osteosynthetic materials in cranioplasty for infants with craniosynostosis

Journal for Craniomaxillofacial Surgery 2007, doi: 10.1016/j.jcms.2007.04.005

E. Pilling, R. Mai, F. Theissing, B. Stadlinger, R. Loukota

An experimental in vivo analysis of the resorption to ultrasound activated pins (SonicWeld Rx®) and standard biodegradable screws (Resorb X®) in sheep

British Journal of Oral Maxillofacial Surgery 2007, doi: 10.1016/j.bjoms.2006.12.002
